

SPECIAL HAULING PERMIT

TO WHOM IT MAY CONCERN:

(Name of Permittee) (Address)

Subject to All Provisions, Conditions and Restrictions, Printed or Written Below, or on the Reverse Side Hereof, Is Hereby Granted Permission to Haul or Move.

(Describe object or objects to be moved. Give make and model of Equipment).

Weighing _____ Pounds
(Manufacturers Shipping Weight)_____

BELONG TO _____
(Owner) (Address)

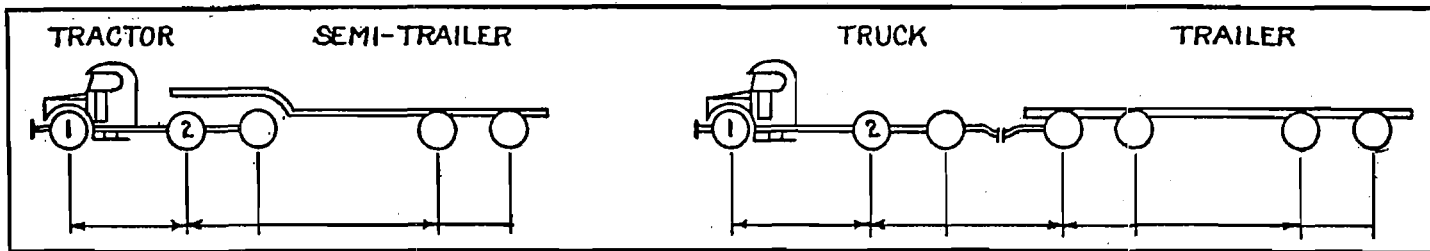

FROM _____
(Locate points at which haul begins and ends on County Highways by distance and direction to nearest town or State Route junction.)

OVER THE FOLLOWING ROUTES: _____
(Give Destination on each Route)

(If Haul or Move is to be made over State or Township Roads, or City Streets, even though on County Highway System, permission must be obtained from the proper State, Township or City Authorities.)

VEHICLE(S) TO BE USED _____
(Truck, Truck and Trailer, Tractor and Semi-Trailer, etc.)

State _____ Tractor or _____ Semi-Trailer
License No. _____ Truck No. _____ Trailer No. _____ No. _____

10. The permission granted restricts the movement of the vehicle(s) or object(s) to the highways specified between the points designated, and within the time allotted.
11. Permits will not be granted for built up loads that are divisible into legal loads.
12. The maximum axle weights for which a permit will be issued are in general for a single axle 32,000 pounds and for a dual axle 40,000 pounds. However, if vehicles with axles of these weights would probably cause damage to the highways or structures the loads must be reduced so the move can be made without such damage. The maximum height, width, and length of vehicles or combinations for which a permit will be issued will be determined by the clearances of structures or other obstructions and by the extent that a vehicle or combination with such dimensions would interfere with or endanger normal traffic on the routes traversed.

The issuing of this permit is not to be construed as making mandatory the granting of other permits when at the discretion of the Pickaway County Engineer the route specified is considered incapable of withstanding the burden that would be imposed or too narrow to safely accommodate normal traffic in conjunction with the proposed excess load.

It is clearly the intent of the law to grant such permits only in special cases where it is impractical, if not absolutely impossible, to comply with the specified limitations in the law. NOTE: It is not contemplated to promiscuously grant permits for the transportation of vehicles or objects exceeding the specified weights and dimensions prescribed in Section 7246, 7248, 7248-1, 7248-2 of the General Code.
