Ditch Work in 2021

In 2021, as part of our ditch maintenance program PCE crews removed silt and straightened Buskirk Ditch back to original design grade between McKinley Road and Federal Road.

Pickaway County Engineer crews worked on Clarks Run. Crews dipped out various sections in the entire length of the ditch.

Know the Numbers

802 The number of landowners that benefit from a County Maintenance Ditch

33.46 The number of miles that our ditches measure combined in length

30 The number of Maintenance Ditches in Pickaway County

The costs of postage and printing this newsletter are part of the Ditch Assessments. If you would like to lower those costs by receiving this Annual Newsletter via Email,

Ditch Mowing

All of the Pickaway County Maintenance Ditches were mowed twice in 2021. Crews mowed the tops of the ditches in late spring and then the tops and bottoms in September/October. Woody vegetation was sprayed as well. These plans will remain the same for this year as well.

*Interested in
Ditch Maintenance?*

We are always looking for committee members. We strive for 3 members per ditch. Contact our office if you are willing to help.

2022

As weather permits this season, Pickaway County Engineer crews have been and will continue work on cleaning and miscellaneous repairs to the following maintenance ditches:

- Fulks Moore Wolford – Reshaping and flattening grades. Redigging the bottom to control erosion. Returning the ditch to original design grade.
- Mud Run – cleaning and removing silt and debris in various sections of the ditch.
